

Letter of Recommendation

During the period in which I carried out the Project of the Euro 2012 for Cosmos Spain's clients in the city of Gdansk I had the pleasure to work with Catering 3City organizing a private dinner for 200 employees of one of our Spanish clients at the famous BHK facilities within the Shipyards of Gdansk.

I would highlight the quality of the food along with an excellent level of service as the top features of this catering company.

Besides they cooperated with us in organizing the dinner taking care of the rental of the facilities which saved us time and money.

In particular Grzegorz Szulz, the owner of Catering 3City was extremely cooperative and creative helping us out planning and successfully carrying out the whole event focusing in every little detail to assure the maximum level of satisfaction.
